

Quality Policy

Royal Equipment is committed to delivering world-class quality products in remanufactured equipment, aftermarket parts/OEM, assemblies and components. It is our vision to be the number one choice when it comes to providing quality cost effective solutions for all customers in the mining industry.

In order to achieve this vision, we will continuously work to improve our quality management processes and deliver through:

- Continuously improving our quality systems
- Training and developing the expertise, professionalism, and integrity of our people
- Evaluating and auditing our outside vendors
- Resolving all quality issues in a timely manner

The Leadership team at Royal is committed to creating an environment that encourages our people to continuously perform to the highest quality standards. We believe this will allow us to achieve our vision and be viewed by our customers as a leader in delivering quality remanufactured products.
